

The Company are committed to providing products and services which meet the customers' specified contractual and project requirements. We are totally committed to setting and achieving quality standards that are capable of meeting, in all respects, the specified requirements and reasonable expectations of our customers.

The Company shall develop and maintain an Integrated Management System (IMS) that conforms to the requirements of ISO 9001:2015; ISO 14001:2015; ISO 45001:2018 so that we can provide and maintain a consistently high quality in all work we undertake. Our IMS shall ensure that proper communication, work control and accountable records are generated for all work undertaken.

All members of The Company are charged with promoting these aims and are required to familiarise themselves with the contents of this IMS Manual which defines the IMS System that has been established and adopted as the means for achieving these declared objectives. Everyone employed by The Company shall be supported according to their individual needs for personal development, training and facilities.

The HSQE Administrator, who is assisted by external help, is the appointed management representative responsible for monitoring reviewing and ensuring the correct and effective implementation of The Company IMS as a whole. With the aim to continually evaluate and improve the effectiveness of the IMS system.

Total Quality Management shall be applied to every aspect of our activity and quality shall be the responsibility of everyone, in every activity, throughout The Company.
